JT Moring is a songwriter, musician, and singer who tends to bring his sly humor to bear on any topic he covers, be it love or politics. His style encompasses a classic mix of American music: folk, country, blues, and rock; fitting considering his Texas and mid-western roots. The songs are characterized by meaningful witty lyrics, a strong rhythm, and melodic choruses. With a varied musical past that includes brass ensembles and punk rock, Moring is currently working several acoustic performance and recording projects in the San Diego area.
